27	Estonian	57	Slovak		
28	Finnish	58	Slovenian		
29	French (Belgium)	59	Spanish (Argentina)		
30	French (Canada)	60	Spanish (Bolivia)		

And currently IT-800 and DT-X30 Windows Mobile Models can not have additionally other regional settings. (Ex. Arabic, Chinese, Korean, Thai etc...)

## 2. Restrictions

According to supported regional settings matter, IT-800 and DT-X30 Windows Mobile Models can not use some code page of supported other regional settings.

Ex.1

Code conversion functions like "MultiByteToWideChar()" can not work correctly if you use unsupported codepage. (like below codepage)

Language		Codepage
Chinese	Big5	950
Chinese	GB	936
Korean		949
Etc.....		

Ex.2

A file transfer between a PC and a HT cannot keep a file name correctly if the file is named by the character code of the codepage which is not supported.

Therefore you must specify file name by using 1 byte code (Alpha numeric code).

### 3. Support

Support for this issue is provided by CASIO Tokyo for all the geographic areas with exception of European countries. All European countries (except Russia) are supported by CASIO Europe GmbH in Germany. If you are situated in the area, please contact Casio Europe GmbH for any support you may need.
